EDUCATION

BSc Computer System Engineering, Palestine Technical University, Kadoorie - Palestine **09/2022 – 01/2027**

- Grade: 85.6/100
- Key Modules: Object-Oriented Programming, Data Structures and Algorithms, Database Management Systems, Software Engineering, Web Development, Computer Networks.

WORK EXPERIENCE

Backend Developer, Foothill Technology Solution, Remote **02/2026 – 03/2026**

- Completed 200 hours of hands-on backend development training covering core software engineering concepts including data structures, algorithms, OOP, RESTful APIs, databases and software design principles such as SOLID principles and Design Patterns
- Built practical projects during the internship to reinforce backend development skills and apply real-world backend development practices in a hands-on training environment

Backend Developer Trainee, ASAL Technologies, Nablus, Palestine **07/2026 – 10/2026**

- Completed hands-on backend development training focused on C# and ASP.NET Core.
- Applied object-oriented programming, SOLID principles, and design patterns in backend development.
- Developed RESTful APIs and worked with databases using SQL Server and Entity Framework Core.

PROJECT EXPERIENCE

Eccomerce **09/2025 – 10/2025**

- Built a backend eCommerce system in ASP.NET Core, designed with clean architecture principles and a scalable, maintainable structure, implementing RESTful APIs for product, cart and order management along with secure role-based authentication and authorisation
- Followed SOLID principles and common design patterns to keep the code clean and extensible, and integrated SQL Server with initial data seeding to bootstrap essential application data

CakeOrderingSystem-DesignPatterns **01/2026 – 02/2026**

- Built a Java-based Cake Ordering System implementing OOP concepts and design patterns for scalable and maintainable order management

CERTIFICATIONS

Backend Development Certificate, Foothill Technology Solution, Remote **03/2026**

SKILLS

IT: C#, ASP.NET Core, RESTful APIs, SQL Server, Entity Framework Core, Object-Oriented Programming (OOP), SOLID Principles, Design Patterns, Data Structures & Algorithms, HTML, CSS, JavaScript, Git, GitHub, Redis, N-Tier Architecture, Authentication & Authorization

Languages: English - Fluent, Arabic - Native

HOBBIES AND INTERESTS

- Problem Solving and Coding Challenges
- Learning New Technologies
- Building Personal Software Projects
- Software Architecture and System Design
- Backend Development and Design Patterns
